This product is NOT CLASSIFIED as Hazardous according to criteria of SWA.  
This product is NOT CLASSIFIED as a Dangerous Good according to the Australian Dangerous Goods (ADG) Code.

**SUSMP Classification:** None allocated.  
**Risk Phrases:** Not Hazardous - No criteria found.  
**ADG Classification:** None allocated. Not a Dangerous Good under the ADG Code.  
**UN Number:** None allocated

**GHS Signal word:** NONE. Not hazardous.

**HAZARD STATEMENT:**

AUH066: Repeated exposure may cause skin dryness or cracking.

**PREVENTION**P102: Keep out of reach of children.  
P281: Use personal protective equipment as required.**RESPONSE**P353: Rinse skin or shower with water.  
P301+P330+P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.  
P332+P313: If skin irritation occurs: Get medical advice.  
P337+P313: If eye irritation persists: Get medical advice.  
P370+P378: Not combustible. Use extinguishing media suited to burning materials.**STORAGE**

P402+P404: Store in a dry place. Store in a closed container.

**DISPOSAL**

P501: Dispose of small quantities and empty containers by wrapping with paper and putting in garbage. For larger quantities, if recycling or reclaiming is not possible, use a commercial waste disposal service.

**Major Health Hazards:** repeated exposure may cause skin dryness or cracking.

## SECTION 3 - COMPOSITION/INFORMATION ON INGREDIENTS

Ingredient	CAS Number	%	TWA (mg/m <sup>3</sup> )	STEL (mg/m <sup>3</sup> )
Water	7732-18-5	to 100	Not Set	Not Set
Sodium laureth sulfate	13150-00-0	5 - 15	Not Set	Not Set
Other non hazardous detergents	Various	10 - 30	Not Set	Not Set
Other non hazardous ingredients	Various	<10	Not Set	Not Set

**This is a commercial product whose exact ratio of components may vary slightly. Minor quantities of other non-hazardous ingredients are also possible.**

The ASCC TWA exposure value is the average airborne concentration of a particular substance when calculated over a normal 8 hour working day for a 5 day working week. The STEL (Short Term Exposure Limit) is an exposure value that may be equalled (but should not be exceeded) for no longer than 15 minutes and should not be repeated more than 4 times per day. There should be at least 60 minutes between successive exposures at the STEL. The term "peak" is used when the TWA limit, because of the rapid action of the substance, should never be exceeded, even briefly.

## SECTION 4 - FIRST AID MEASURES

You should call The Poisons Information Centre if you feel that you may have been poisoned, burned or irritated by this product (See **Section 1**).

- Skin contact:** Irritation is unlikely. However, if irritation does occur, flush with lukewarm, gently flowing water for 5 minutes or until chemical is removed.
- Eye contact:** Immediately flush the contaminated eye(s) with lukewarm, gently flowing water for 5 minutes or until the product is removed, while holding the eyelid(s) open. Obtain medical advice immediately if irritation occurs. Take special care if exposed person is wearing contact lenses.
- Ingestion:** If product is swallowed or gets in mouth, do NOT induce vomiting; wash mouth with water and give some water to drink. If symptoms develop, or if in doubt contact a Poisons Information Centre or a doctor.
- Inhalation:** First aid is not generally required. If in doubt, contact a Poisons Information Centre or a doctor.

## SECTION 5 - FIRE FIGHTING MEASURES

SUITABLE EXTINGUISHING MEDIA: Not combustible. Use extinguishing media suited to burning materials.

SPECIFIC HAZARDS ARISING FROM THE CHEMICAL

The major hazard in fires is usually inhalation of heated and toxic or oxygen deficient (or both), fire gases. There is no risk of an explosion from this product under normal circumstances if it is involved in a fire.

Only small quantities of decomposition products are expected from this product at temperatures normally achieved in a fire. This will only occur after heating to dryness.

Fire decomposition products from this product are likely to be irritating if inhaled.

**Fire Fighting:** If a significant quantity of this product is involved in a fire, call 000 (Australia)

SPECIAL PROTECTIVE ACTIONS FOR FIRE-FIGHTERS

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk.

SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

- Flash point:** Does not burn.
- Upper Flammability Limit:** Does not burn.
- Lower Flammability Limit:** Does not burn.
- Autoignition temperature:** Not applicable - does not burn.
- Flammability Class:** Does not burn.

**SECTION 6 - ACCIDENTAL RELEASE MEASURES**

This product is sold in small packages, and the accidental release from one of these is not usually a cause for concern. For minor spills, clean up, rinsing to sewer and put empty container in garbage. Although no special protective clothing is normally necessary because of occasional minor contact with this product, it is good practice to wear impermeable gloves when handling chemical products. In the event of a major spill, prevent spillage from entering drains or water courses and call emergency services.

**SECTION 7 - HANDLING AND STORAGE**PRECAUTIONS FOR SAFE HANDLING:

Keep exposure to this product to a minimum, and minimise the quantities kept in work areas. Check Section 8 of this SDS for details of personal protective measures, and make sure that those measures are followed. The measures detailed below under "Storage" should be followed during handling in order to minimise risks to persons using the product in the workplace. Also, avoid contact or contamination of product with incompatible materials listed in Section 10.

CONDITIONS FOR SAFE STORAGE, INCLUDING ANY INCOMPATIBILITIES

Make sure that containers of this product are kept tightly closed. Keep containers dry and away from water. Make sure that the product does not come into contact with substances listed under "Incompatibilities" in Section 10. Some liquid preparations settle or separate on standing and may require stirring before use. Check packaging - there may be further storage instructions on the label.

**SECTION 8 - EXPOSURE CONTROLS AND PERSONAL PROTECTION**OCCUPATIONAL EXPOSURE LIMITS

Exposure limits have not been established by ASCC for any of the significant ingredients in this product.

No special equipment is usually needed when occasionally handling small quantities. The following instructions are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems.

<b>Ventilation:</b>	No special ventilation requirements are normally necessary for this product. However make sure that the work environment remains clean and that vapours and mists are minimised.
<b>Eye Protection:</b>	Eye protection such as protective glasses or goggles is recommended when this product is being used.
<b>Skin Protection:</b>	The information at hand indicates that this product is not harmful and that normally no special skin protection is necessary. However, we suggest that you routinely avoid contact with all chemical products and that you wear suitable gloves (preferably elbow-length) when skin contact is likely.
<b>Respirator:</b>	Usually, no respirator is necessary when using this product. However, if you have any doubts consult the Australian Standard mentioned above. Safety deluge showers should, if practical, be provided near to where this product is being handled commercially.

**SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES**

<b>Physical State</b>	Viscous liquid
<b>Colour</b>	Transparent Green
<b>Odour</b>	Characteristic (peppermint and aloe vera)
<b>Boiling Point:</b>	Approx imately 100°C at 100kPa
<b>Freezing/Melting Point:</b>	Below 0°C
<b>Volatiles:</b>	Water component
<b>Vapour Pressure:</b>	2.37 kPa at 20°C (water vapour pressure)
<b>Vapour Density:</b>	As for water

<b>Specific Gravity:</b>	0.975 - 0.985
<b>Water Solubility:</b>	Completely soluble in water
<b>pH:</b>	6.0 - 6.5
<b>Volatility:</b>	No data
<b>Odour Threshold:</b>	No data
<b>Evaporation Rate:</b>	As for water
<b>Coeff Oil/Water Dist.:</b>	No data
<b>Autoignition temp:</b>	Not applicable - does not burn

## SECTION 10 - STABILITY AND REACTIVITY

**REACTIVITY:** No significant decomposition products. This cosmetic product is stable under normal conditions of use, but, if exposed to extreme temperatures (above 50°C) for prolonged periods, may change texture and colour.

**CONDITIONS TO AVOID:** Keep containers tightly closed. Containers should be kept dry.

**INCOMPATIBLE MATERIALS:** Strong oxidising agents.

**HAZARDOUS DECOMPOSITION PRODUCTS:** Only small quantities of decomposition products are expected from this product at temperatures normally achieved in a fire. This will only occur after heating to dryness. Combustion forms carbon dioxide, and if incomplete, carbon monoxide and possibly smoke. Water is also formed. May form nitrogen and its compounds, and under some circumstances, oxides of nitrogen. Occasionally hydrogen cyanide gas in reducing atmospheres. May form oxides of sulfur (sulfur dioxide is a respiratory hazard) and other sulfur compounds. Most will have a foul odour. Sodium compounds. Carbon monoxide poisoning produces headache, weakness, nausea, dizziness, confusion, dimness of vision, disturbance of judgment, and unconsciousness followed by coma and death.

## SECTION 11 - TOXICOLOGICAL INFORMATION

No ingredient mentioned in the HSIS Database is present in this product at hazardous concentrations.

### INFORMATION ON TOXICOLOGICAL EFFECTS

	INHALATION	SKIN CONTACT	EYE CONTACT	INGESTION
SHORT TERM EXPOSURE	Available data indicates that this product is not harmful. In addition product is unlikely to cause any discomfort or irritation.	Available data indicates that this product is not harmful. It should present no hazards in normal use. However product may be mildly irritating, but is unlikely to cause anything more than mild discomfort which should disappear once contact ceases.	This product is believed to be mildly irritating, to eyes, but is unlikely to cause anything more than mild transient discomfort.	Significant oral exposure is considered to be unlikely. However, this product is believed to be mildly irritating to mucous membranes but is unlikely to cause anything more than mild transient discomfort.
LONG TERM EXPOSURE	No data	Repeated exposure may cause skin dryness or cracking.	No data	No data

### CARCINOGEN STATUS:

<b>SWA</b>	No significant ingredient is classified as carcinogenic by SWA.
<b>NTP</b>	No significant ingredient is classified as carcinogenic by NTP.
<b>IARC</b>	No significant ingredient is classified as carcinogenic by IARC.
<b>Target Organs</b>	There is no data to hand indicating any particular target organs.

**SECTION 12 - ECOLOGICAL INFORMATION**

TOXICITY Insufficient data to be sure of status. Expected to NOT be an environmental hazard.

**SECTION 13 - DISPOSAL CONSIDERATIONS**

Dispose of small quantities and empty containers by wrapping with paper and putting in garbage. For larger quantities, if recycling or reclaiming is not possible, use a commercial waste disposal service.

**SECTION 14 - TRANSPORT INFORMATION**

This product is NOT CLASSIFIED as a Dangerous Good. No special transport conditions are necessary unless required by other regulations.

**SECTION 15 - REGULATORY INFORMATION**

All of the significant ingredients in this formulation are compliant with NICNAS regulations.

**SECTION 16 - OTHER INFORMATION**

THIS SDS SUMMARISES OUR BEST KNOWLEDGE OF THE HEALTH AND SAFETY HAZARD INFORMATION OF THE PRODUCT AND HOW TO SAFELY HANDLE AND USE THE PRODUCT IN THE WORKPLACE. EACH USER MUST REVIEW THIS SDS IN THE CONTEXT OF HOW THE PRODUCT WILL BE HANDLED AND USED IN THE WORKPLACE.

IF CLARIFICATION OR FURTHER INFORMATION IS NEEDED TO ENSURE THAT AN APPROPRIATE RISK ASSESSMENT CAN BE MADE, THE USER SHOULD CONTACT HAWLEY INTERNATIONAL (DETAILS IN SECTION 1), SO WE CAN ATTEMPT TO OBTAIN ADDITIONAL INFORMATION FROM OUR SUPPLIERS.

OUR RESPONSIBILITY FOR PRODUCTS SOLD IS SUBJECT TO OUR STANDARD TERMS AND CONDITIONS, A COPY OF WHICH IS SENT TO OUR CUSTOMERS AND IS ALSO AVAILABLE ON REQUEST.

**PLEASE READ ALL LABELS CAREFULLY BEFORE USING PRODUCT.**

This SDS is prepared in accord with the SWA document "Preparation of Safety Data Sheets for Hazardous Chemicals - Code of Practice" (Feb 2016)

ACRONYMS:

<b>ADG Code</b>	Australian Code for the Transport of Dangerous Goods by Road and Rail
<b>AICS</b>	Australian Inventory of Chemical Substances
<b>SWA</b>	Safe Work Australia, formerly ASCC and NOHSC
<b>CAS Number</b>	Chemical Abstracts Service Registry Number
<b>Hazchem Code</b>	Emergency action code of numbers and letters that provide information to emergency services especially firefighters
<b>IARC</b>	International Agency for Research on Cancer
<b>NOS</b>	Not otherwise specified
<b>NTP</b>	National Toxicology Program (USA)
<b>R-Phrase</b>	Risk Phrase
<b>SUSDP</b>	Standard for the Uniform Scheduling of Drugs & Poisons
<b>UN Number</b>	United Nations Number
