# W E L C O M E

Welcome to the Hawley® International product catalogue. This latest edition brings together a new format bursting with exciting, new and innovative ideas.

Hawley is celebrating over 75 years of manufacture and distribution in the nail and beauty industry at both professional and retail level. Our supply chain is via a distribution network throughout Australia and New Zealand with a growing list around the world.

We strive for a reputation of excellence built on a foundation of quality, innovative products at competitive prices and a high level of friendly, professional service.

The Hawley research and development team is constantly working on strategies to keep abreast of new ideas and changes within the industry.

Raw materials used in our manufacture are sourced locally wherever possible and others originating from various leading suppliers around the world are brought in and blended to our own specifications and formulas. We also have exclusive distribution for a number of world leading branded products.

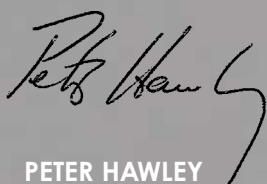

Private label is another arm of our business. We have a selection of packaging solutions to choose from and our in-house graphic design team is on hand to help out with labels and numerous other packaging ideas.

A feature in this edition is our cutting edge Illume acrylic range, the result of many years of extensive planning and development. We set out to fill a void in the market with a product that would produce a finish as good or better than any of the major international brands and packaged to look the part in any environment.

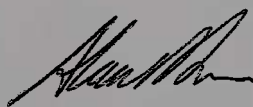

Illume's PPS technology and Activate are key factors in a complete system that has a gel-like finish, prevents damage to the natural nail and dramatically reduces application time.

Illume has been a huge success in Australia and is now taking on the world with new distributors so far in Europe, South Africa, South America, Hong Kong, Indonesia and New Zealand.

Thank you for taking the time to look over our new line-up. Every endeavour has been made to make your catalogue experience a rewarding one, however if you don't find the particular product you are looking for, please let us know and we will do our best to source it for you.

# ILLUME™ RANGE

Cutting edge raw materials and packaging are sourced from major suppliers around the world and formulated to exacting production standards to bring you the Illume Fusion Monomer and Polymer range.

This revolutionary new Acrylic system has created a sensation in Australia and is now taking on the world with export markets in Europe, South Africa, South America, Hong Kong, Indonesia and New Zealand with more on the horizon.

The unique formulas and PPS™ technology of Illume enables the technician to produce the perfect nail enhancement every time and damage to the natural nail should now be a thing of the past.

A key element in the Illume range is the specifically designed and uniquely formulated Illume Activate. This amazing new product penetrates the nail plate and surrounding tissue to help remove contamination and allow the cuticles to be pushed back with ease. This then allows the gentle and safe removal of the True Cuticle, effectively eliminating the need for harsh filing and subsequent damage to the natural nail.

The Polymers in the Illume range have superior clarity and a variety of colours & styles to choose from, enabling the operator to custom design the service for each individual client. With non yellowing properties, self levelling formulas and ease of use, the Illume Fusion Acrylic System is certainly world class.

## ILLUME™ FILES & TOOLS

### 1021 Sunshine Buffer

400/1200

Illume Sunshine Buffer is a custom blended buffer, which has been specifically designed to be gentle to the natural nail or acrylic nail enhancement. Offers a soft touch. Use the coarse yellow side to shape the nail free edge and the smooth grey side works especially well with Illume Essencia oil to give an interim shine.

### 1020 Silky Sand

120/240

Illume Sunshine Buffer is a custom blended buffer, which has been specifically designed to be gentle to the natural nail or acrylic nail enhancement. Offers a soft touch. Use the coarse yellow side to shape the nail free edge and the smooth grey side works especially well with Illume Essencia oil to give an interim shine.

### 4005 8PC Professional Manicure Implement Kit

Includes:

- Stainless Steel Knife & Pusher
- Sleek Curve Cuticle Pusher
- Rasp & Pusher Manicure Scissors
- Slant Tweezers
- Nipper 8mm Jaw with Handle
- Acrylic/Cuticle Nipper 8mm Jaw & One Cut Nail Edgecutter

Each tool has been manufactured using high grade Japanese steel, this allows the implements to be strong and durable. A protection layer of rust proofing has also been applied.

### 4014F Illume Sleek Cuticle Pusher

Cuticle Pusher has two distinctively different ends the first being the The sleek curve - Been specifically designed to eliminate any damage when pushing back cuticles.

The curette end - Perfect for cleaning around the nail, the scooped shape is gentle on the tissue yet sharp enough to remove non-living tissue.

### 6016A Activate Brush in Canister

A Pure Sable brush. Designed specifically for achieving the foaming action for Activate 3 in 1 exfoliator.

Illume Activate brush is a firm square brush that, works the product into the epionychium and the Nail Plate. It penetrates deeply into the skin and Nail Plate providing moisture where needed and exfoliation on those tough areas.

## ILLUME™ DEFINE™ NAIL TIPS

Dramatic sleek curve for elegant nails at any length. Define tips are well-less with parallel side walls. Strength and durability are also a feature in this unique thin design structure that makes blending a thing of the past.

## ILLUME™ TREATMENTS

### FUNGRID™

Prevents, treatments and cures of fungal nail infections. Fungus feeds on the Keratin found in the nail plate, this feeding gradually destroys the Nail Plate altogether.

FUNGRID YOUR BEST DEFENCE to prevent and cure fungal nail infections; simply place a few drops under the natural nail free edge, morning and night. With constant use of Fungrid problems will be cured in no time. Works Fast to combat the devastating effects of nail fungal disease. Relieving itching and discolouration. Stops the spread of fungal infection, from fingernails to toenails.

<b>5020</b>	<b>3.7 ml</b>
<b>5021</b>	<b>15 ml</b>

# FILES

Hawley International has the most expansive range of Buffers, Grinders, Files and Emery Boards in Australia. The finest quality papers, woods and plastics are sourced from all over the world to manufacture and cater for all natural nails, acrylics, gels and wrap enhancements.

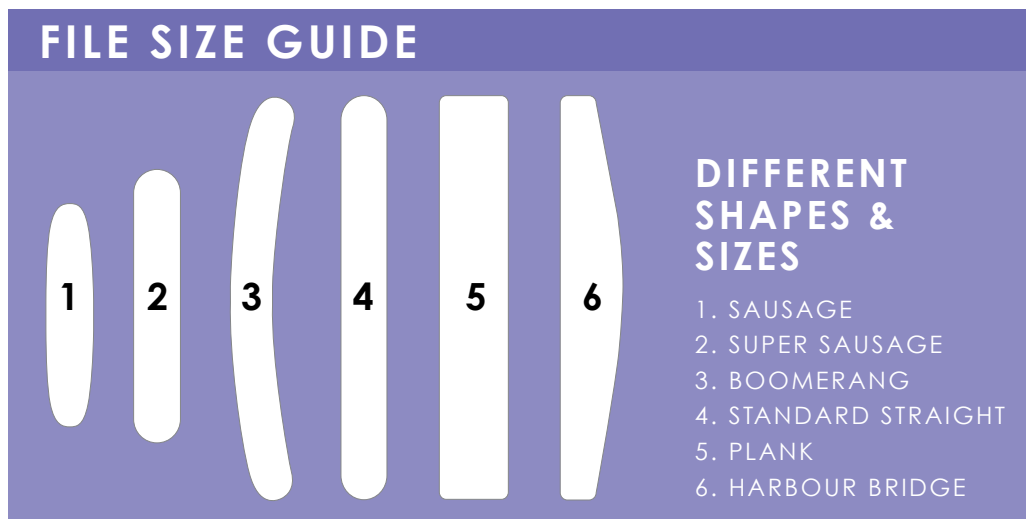

If your particular file, buffer or grinder is not listed in our catalogue, please feel free to contact our specialists and we will endeavour to manufacture or source it for you. Minimum order quantities may apply to custom made items.

**Black Beauty Emery Boards – 4 sizes.** The Flagship of the Hawley range. Made with distinctive fine grade black emery with a strong flexible wood veneer centre – a favourite with professionals. Washable for continued reuse.

**Hawley Black Washable Grinders** are made of silicone carbide, sharp long lasting abrasive and can be used wet or dry and may be sanitised.

**Hawley White Washable Grinders** are made from an extra durable aluminum oxide abrasive. They are long lasting, waterproof and do not leave black specs on nails or in acrylic powder. They may be sanitised.

**Hawley Frosty Washable Grinders** are made from silicone carbide abrasive base with a water resistant stearate coating. The coating may be sanitised in some solutions. The file must be dried before reusing.

# MANI & PEDI

## Manicure Products

The finest ingredients of Chamomile, Lavender, Peppermint, Aloe Vera and Menthol have all been used in our latest Manispa™ range. The combination of these essentials will help to deliver relaxation and conditioning not only to the skin but to all 5 senses.

The ultimate Manispa experience begins with a soothing and conditioning soak, moving onto revitalising scrub then refreshing and relaxing mask and finally a relaxing massage with the hydrating lotion.

For the client who needs that extra touch to their skin, hands and nails, Hawley offers a range of hand & nail treatment creams and nail strengthening coatings.

There is also a range of manicure bowls and other related manicure products in various styles and colours to help compliment the décor and ambience of any salon.

## Pedicure Products

They say that a good foot massage can relax the whole body. With this in mind, Hawley Pedispa™ has designed a complete pedicure product range that will invigorate, refresh and relax those tired feet.

Some of the ingredients used include; Aloe Vera, known for its soothing and healing properties, and spearmint which provides that cool tingle in the toes.

Clients will enjoy the whole Pedispa experience, from the fantastic foot soak to the exhilarating exfoliating scrub, refreshing mask and the hydrating lotion.

We also have a variety of Pedipad'ls™ of varying shapes, sizes and styles to suit every client or technician's needs. Choose from materials such as; Washable Mylar, Ceramic or Stainless Steel to Pedipad'ls with replacement disks. Stainless Steel or plastic handled corn cutters with replacement blades are also available to help maintain hard rough skin.

**MANISPA RANGE  
BLISSFUL SOAK**

A soothing, foaming all over mani wash with a blend of fragrances that has been created to uplift the mind and body. Gentle and moisturising for daily use. Can be used as a foaming soak, hand cleanser or nail soak.

- 15610 125ml**
- 15611 250ml**

# IMPLEMENTS

The professional nail and beauty industry requires a high standard of workmanship and quality. Our new and innovative approach is to set and exceed these standards wherever possible.

Our premium range of implements are manufactured from highest grade Japanese steel, ensuring superior strength and durability. All implements have also been rust proof coated for longevity of use and manufactured to exacting standards of the Rockwell scale of hardness.

Whether it be for Manicure, Pedicure, Nail Enhancement, Make-up or Waxing treatment, Hawley has an implement to suit.

View the large selection of Clippers, Nippers, Tweezers, Scissors, Edge Cutters and Nail Art tools. If the implement you desire is not in our current range, please let us know and we will endeavour to find it for you.

# EQUIPMENT

All electrical equipment needs for nail services in the salon environment are available here in the one spot. From Gel Lamps and Dryers, to Electric Filing Systems and Dust Collectors.

Hawley International is the master importer and distributor in Australia for the complete range of the U.S. manufactured Kupa™ electric filing systems, drill bits and accessories. We have a system to suit any skill level, from students right through to the ultimate professional.

Kupa is a founding member of the AEFM (Association of Electric File Manufactures) and all Kupa systems have been designed to meet AEFM standards.

Each system also comes complete with its own selection of drill bits, including Diamond, Carbide, Mandrel and Sanding bands and all are accompanied by a full twelve month warranty.

The Hawley Lamps range from the 6watt to 45watt. All lamps come complete with globes, and spare bulbs are available for separate purchase.

The most versatile lamp is the 45watt Delta as it is suitable for hands & feet. It has a slide out under-tray (for ease of bulb changing), fan and timer making the service comfortable throughout.

## STUDENT TIP TOOL

This high powered tool for natural and artificial nails is ideal for students and practising professionals alike. Its light weight hand piece with built in variable speed control allows the user ultimate control. 4,000 - 13,000 RPM. Comes in durable travel case.

The Tip Tool includes  
 12 Sanding Bands  
 4 x Fine  
 4 x Medium  
 4 x Coarse

2 Collector bits  
 2 Diamond bits  
 1 Piercing drills  
 2 Cutistone bits  
 2 Soft buffers

6 months warranty. Proof of purchase required

**TTSD Student Tip Tool**

## GEL LAMPS

UV curing lamps guarantee great performance

### ALPHA 6WATT UV CURING LAMP

#### 11004

Effective with top coats and gels. Great for students and beginners and is compact enough for nail technicians on the go.

#### 11004A Ultra Violet Replacement Bulb 6Watt

ELECTRIC  
CALLUS REMOVER**

**11013**

Use on wet or dry skin. With little effort gently manoeuvre the Foot Angel over affected area, creating soft, clean looking skin in minutes.

All equipment have a 1 Year Warranty. Proof of purchase required.

# KUPA

INCORPORATED

## KUPA

KUPA Incorporated, the leaders in electric files, bringing quality products and to the forefront of the nail industry. Leading the way with their electric file systems, nail drills and carbide bits.

## KUPA DRILLS

Every working technician should own a good electric file, whether your use is all day long or once in a while. Backfilling is difficult by hand and some other areas are hard to reach with a file such as the undersides and the cuticle areas. Shortening nails, high shine buffing; natural nail prep and refining tips are a few other reasons for an electric file. Using an electric file during pedicures is becoming trend. Techs are using e-files to reshape thick toe nails and with special bits to remove callous. This is especially effective in places on the foot that are hard to reach. Many techs that perfect their skills with the electric file shorten their time, increase profits and it is also a great way to avoid carpel tunnel.

BLUEBERRY

## MANIPRO

Featuring:  
Lightweight hand piece stronger, quieter & smoother running than anything in it's class. Ergonomic with a long hand piece cradle for a more secure fit. The control box has a sleek look and occupies only 8cm x 13cm of table space. Variable speed control (0-15,000 rpm) with forward /reverse. Built-in bit holder. Easy to change bits - push in to use or out to replace, - no tools required.

- Includes:
- 1 Carbide medium barrel,
  - 1 Carbide under nail cleaner
  - 1 Mandrel with 5 medium sanding bands

One year limited warranty.

## KP-3000

The KP-3000 hand piece, dynamically tuned engine delivers high torque & speeds up to 30,000 rpm with virtually no vibration! A quick release chuck system to change bits with a simple twist of the wrist! The control box is fully equipped with features that include: a selector switch for forward or reverse, a sliding speed control selector with illuminated speed indicator and a foot control selector switch for use with a foot pedal if desired. Note: Foot pedal is an optional extra.

The complete system includes:

- 1 Carbide barrel "medium",
- 1 Mandrel with 10 sanding bands.
- 1 Carbide under nail cleaner,
- 1 1oz. Bottle bit disinfectant solution (makes 1 gallon),
- 1 AEFM video entitled (Electric Filing – The Safe Method)

One year limited warranty.  
Proof of purchase required.

# KUPA

INCORPORATED

## KUPA DRILL BITS

The bits you choose are just as important as the machine you buy. Buying a well-made bit will not only give you better results but will also last longer. Unlike sanding bands, diamond bits & stones, Carbide bits don't grind away material; instead, a series of flutes are cut into the shank at varying widths. A carbide requires much less pressure in order to remove the acrylic. This results in less friction, the major cause of heat build-up.

# MENDA

## MENDA PUMPS

In the professional nail care environment, preventing - contamination and ensuring sanitation are vital elements. The Menda Pure-Touch Pump & The Take-Along pump protects against liquid contamination, reduces odors, controls evaporation and eliminates spillage and waste. There is no need to touch the bottle. Liquid is dispensed with one touch of a brush. Prevents Toxic Fumes and accidents - Precision valves seal contents in bottle until used, increasing safety and comfort for the user. Prevents spills, dripping and escaping fumes from endangering the technician. The airtight valves stop evaporation of even volatile solvents, increasing the safety and comfort of both the technician and customer. Ideal for acrylic liquid, primer, brush cleaner and all brush applications. Great for travelling.

**4025B** Menda Plastic Liquid Dispenser Twist n Lock 250ml superior quality

**4025BB** Menda Plastic Liquid Dispenser Twist n Lock 125ml superior quality

# GLUES

Hawley pink nail adhesives are made from synthetic cyanoacrylates, with no animal bi-products. They pressure set in 10 seconds, are non yellowing, dry transparent and offer superior adhesion.

The special pink formula dries transparent to match the natural nail which – along with the Define tips - dramatically reduces blending time.

Available in both liquid and gel forms and in brush-on, squeeze bottle or tube.

---

**7005 10pk Fibreglass Resin Extension Tip**

Controls the flow of glue or resin. They slide onto the open glue container. A small hole in the top of the tip allows smooth & even flow onto any surface.

# UV GEL SYSTEMS

Try the unique Hawley™ clear blue One Phase™ gel. A self levelling, viscous formula that has great strength & workability and excellent adhesion to the natural nail. It can be used as a base, builder and top gel. The ideal product for all skill levels that also dramatically reduces application time.

The one phase gel can be used by itself or in conjunction with the French white, French pink or any of the coloured gels.

Miraseal™ UV gel top coat is an amazing new finishing gel that cures in less than 3 minutes, has no tacky residue and leaves a mirror glass-like shine. It gives a fantastic seal on gels and acrylics and is UV and solvent resistant. Miraseal protects against polish stain and there is no need for buffing or cleansing required to finish.

## UV GEL SYSTEMS

### BLACK LABEL ONE PHASE UV GEL

Our unique and innovative clear One Phase Gel System can be used as a base, builder & top gel. Easy to use formula. Self-levelling and thick viscosity for greater control

# SOLUTIONS

The Hawley and Illume solutions are produced here in Australia using our own specifically designed formulations. These formulations are the result of extended research & development involving many industry professionals over a number of years.

Non petroleum based solvents have been used wherever possible which makes them much more user friendly and each solution has its own distinctive colour and fragrance for ease of recognition.

Material Safety Data Sheets (M.S.D.S.) on all Hawley solutions are available in; Hard Copy, Disc, or On-line at [www.hawley.net.au](http://www.hawley.net.au)

# COATING & LACQUERS

Quite possibly the most comprehensive range of Nail Lacquers and treatments available in Australia. To start with we have our own Hawley range of colours and treatments which comprises over 250 individual colours and numerous treatments to suit any occasion or application. Our Lacquers and treatments are very popular among some of Australia's leading salons and compare favorably in quality to most of the more high profile competitors.

Create the perfect French polish beginning with several choices of base coats in various shades of pink and white. French polish packs are also available. To top off the perfect French, finish with a selection of top coats from standard to super fast drying.

Hawley is also the master importer and distributor of the fabulous China Glaze™ range of Nail Lacquers and Treatments and also the Duri™ Cosmetics range including Rejuvacote, the nail growth system used by the stars.

COATINGS | LACQUERS

# CHINA GLAZE™

China Glaze is a professional product unlike no other, that's why Hawley are proud to be the sole distributor in Australia. China Glaze polishes contains China Clay as a nail hardener, and free of DBP, Toluene and added Formaldehyde, the China Glaze lacquers are designed for maximum performance. For greater coverage, the non thickening formula is thinner and has a higher saturation of pigments and dyes so colours are richer for a more even distribution of colour without brush drag or blobs of lacquer. The advanced long wearing formula with hardeners ensures durability and strength and contains Special Adhesives that act as anchors to secure the polish to all nail types and Plasticisers to provide flexibility and guard against chipping. The 220 strand brush gives ease of application.

China Glaze Treatments deliver high defences against nail problems, the building blocks to strong healthy nails and transforms dull and damaged nails with no fuss with weekly care.

China Glaze introduces more new seasonal collections per year than any other brand, giving you access to the most in demand seasonal shades immediately. Please contact Hawley for the latest in seasonal collections, treatments and colours.

# NAIL ART

Creating unique and fabulous designs is easy with the right tools. Hawley™ offers a vast selection in nail art from simple stickers, striping tape, foils and decals, to the versatile diamantes and nail art pen & brush.

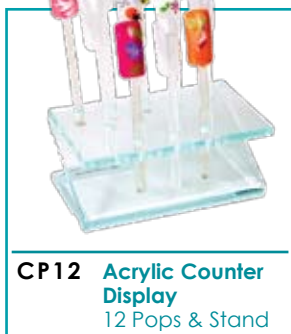

For those slightly more adventurous clients, try a nail piercing with golden dangle or create your own flat or 3d nail art design using coloured acrylic.

To top off a pedicure or gel toe treatment why not entice your clients to wear a toe ring. Hawley™ toe rings are unique in design as they are one size fits all. With 3 different designs to choose from including a simple 10 gem flower, single stone or full ring incusted with gems.

Colorpops™ are an ideal way to display nail art designs and lacquer shades.

# RETAIL

All products in the Hawley retail range are packaged in a handy reusable hang cell carry pouch. They are a great addition for retail sales to help increase profits in the salon while also providing the client with some useful tools for home maintenance between visits. Gift packs are available for those special occasions throughout the year and compact counter display stands can be filled with any product mix of your choosing.

# NOVAVISION™

Novavision is the sole Australian distributor of Innova cosmetic coloured contact lenses. Novavision lenses are made to the highest quality materials available using the latest "spun casting" method of production.

Innova is one of the largest suppliers to the vast Japanese market supplying them with millions of pairs per annum. It is a fact that each Novavision contact lens made is individually checked by hand to ensure our quality is maintained.

Novavision's coloured contacts come in one, two and three tone lenses as well as magic and disco totalling 40 different fun and exciting themes and colours. From Jade green to Sky Blue and Orange disco to scary soccer balls!

Change your eyes to match your mood, express yourself and be noticed in a crowd. Contact us or simply shop online for fast and reliable service at a competitive price.

Each contact lens contains 3 layers... Base, Pigment and Top layer. Most other manufacturers only have 2 layers which means greater irritation.

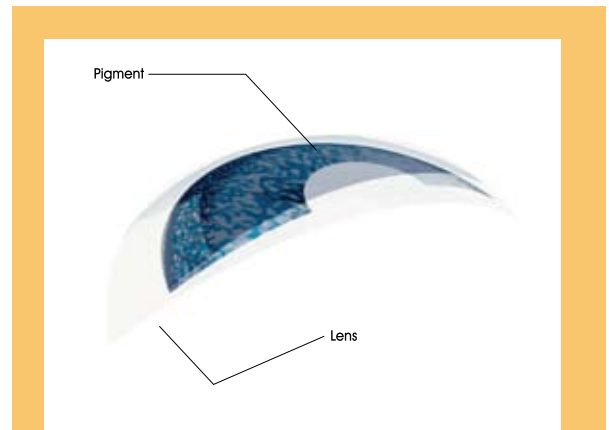

New lens materials (HEMA) emphasising the improvements of light transmission ,oxygen permeability and material adherence reduction to create healthier and more comfortable products for the consumer.

Our factory is CE 0434, ISO 9001, GMP, FDA approved.

Product Specifications of Conventional Novavision Lens

CE . ISO . GMP  
0434 13485

**Lens Features**

1. Special thin-edge design provides maximum comfort.
2. Innovative printing technology addressing art of wrapped-in pigments provide well protection of the eye tissues.
3. Aspheric base curvature offers an excellent fitting.
4. Unique Free-Formed lens surface keeps you feeling fresh after long periods of use.
5. Exclusive lens design makes it easy to handle and quick to insert.
